

HM Components RE-T28

Ball tip silk membrane trable with 28MM special coating

Alluminum treble stand/ N35 advance neodymium steel magnetic

circuit special higt-performance mounting bracket/ multiple installation options.

Short form Thiele/Small parameters

Resonance frequency [fs]	1.174K Hz	Nominal impedance [Zn]	4 Ω
Mechanical Q factor [Qms]	2.187	DC resistance [Re]	3.6 Ω
Electrical Q factor [Qes]	2.061	Sensitivity (2,83V/1m)	89 dB
Total Q factor [Qts]	1.061	100h RMS noise test (IEC 18.4)	25 W
Mechanical resistance [Rms]	0.59	Long-term max power (IEC 18.2)	50 W
